Support for carers, relatives and people with Alzheimers

Are you supporting someone with Alzheimer's
or any other type of dementia?

This may be your mother or father, husband or wife, relative
or friend.

You may find there are issues you don't understand or
questions you need to ask.

The Carers Café is there to help you.

We provide information on the practical, financial & legal problems faced by
carers. We give individual guidance on what help is available and signpost you to
other support services.

We support and befriend carers of people with dementia whether
their relative is at home, in residential care, or in hospital.

We meet together twice a month to share our experiences, learn from each
others, benefit from the company of others facing similar problems
or to obtain information to help them.

For more information please contact
Monica on 0238 0410627
Anne on 01794 515786
Carers Forum on 01794 515126
