

Romsey and District

Support for carers, relatives and people with Alzheimers

Are you supporting someone with Alzheimer's or any other type of dementia? This may be your mother or father, husband or wife, relative or friend.

You may find there are issues you don't understand or questions you need to ask.

The Carers Cafe is here to help you

We provide information on the practical, financial & legal problems faced by carers. We give individual guidance on the help available and signpost you to other support services.

We support and befriend carers of people with dementia whether their relative is at home, in residential care, or in hospital.

We meet together twice a month to share our experiences, learn from each others, benefit from the company of others facing similar problems or to obtain information to help them.

For more information please contact
